CONTEMPORARY EXTRUSIONS PROFILES
UNMATCHED VERSATILITY

The adaptability of our linear aluminum profiles are only matched by their quality and production speed. These lighting systems are booming in popularity as home and office owners hunt for futuristic recessed accent light elements and fixtures.

Contemporary series is far more than just accent lighting.

Create a strip of light that is recessed, surface mounted, or suspended. One run can stretch along the floor, then climb up a wall, and span across the ceiling with angled or intersecting pieces. When suspended, two models provide task lighting from one direction and accent light from the other.

Get custom linear extrusions:

- Sleek and trendy form factor, highly adaptable
- Design and assemble fixtures extremely quickly
- 6063-T5 aluminum maximizes LED lifespan
- PMMA and PC lenses: high clarity, no hotspots

LED CUSTOM PRINTED CEILING PANELS

OFFICE AND RETAIL STORES

OVERVIEW

Discount LED custom printed LED Ceiling Panel features a vibrant lazy day SkyLens® and is a quick and easy alternative to traditional window skylights. The printed LED panel light is great for dental office lighting, hospital lighting, classroom lighting, waiting rooms, basements, and more. Because the panel's driver is built into it's low-profile frame, the light can be surface mounted on walls or ceilings. It can also be mounted in suspended grid ceilings. The image is printed directly on the 2' x 4' LED panel diffuser. This backlit panel light uses Even-Glow® technology and an optical diffuser to deliver a smooth, flawless wall of illumination without visible bulbs or hot spots. Bright and powerful—the 72-watt dimmable LED light emits natural white illumination.
